

WT8S

Junction Box
8 Analog load cells

Truck scale applications, built in high density ABS and with the possibility of unlimited expansions.

- Waterproof, with degree of protection IP66 and e flame protection class HB;
- Equipped with gas discharge tube ground terminal for protection against discharges;
- Equipped with pressure equalizing valve to reduce moisture and condensation inside;
- PA66 nylon cable gland for 3.5 to 7mm diameter cables;
- Input for 8 analog load cells, with unlimited expansion capability;
- Setting range approximately 4.2% of the output signal of 350 Ohms load cells.
